

How many times throughout your day do you wish you could take some time to just rest and engage in a relaxing activity? A way to tackle life's stresses and tension that is thoroughly enjoying. Many adults are turning away from traditional methods of stress reduction, picking up their colored pencils or markers and sitting down with a coloring book. This book is filled with beautiful images that will temporarily transport you to another place, a place where you are able to feel the warm breeze blowing and smell fresh air and flowers. With this book you are able to reconnect with the artist in your past, when you were young and carefree and bring beautiful images to life with rich luscious colors of your choosing. Coloring is a way to bring creativity and imagination into your life. The images in these pages have been created especially for the adult artist. All that is needed is your coloring tool of choice, a little time, and a desire to experience true joy and happiness as your reward. You may be surprised at how easily your imagination is ignited and your creativity sparked. Let these pages take you out of your stressful, adult world for a while and embrace your colorful soul. I promise you that you will walk away from each creation with a sense of accomplishment and a smile on your face.
