

Sharons book is detailed, organized, and easy-to-follow. She wrote her How-To book because she wanted to help others enjoy first time success with resin. In addition to her step-by-step presentation, she also provides her readers with a humorous look at her own personal ups and downs using resin. It's so important to take oneself lightly, she says, I've enjoyed life more, I think, because I'm able to laugh at myself. Sharon is a life-long artist, but her journey with resin jewelry, has just begun. She shares how, and why she decided to explore this medium during the first chapter of her book. In the beginning, Sharon experimented with many different materials and techniques, taking photographs of her acrylic paintings, and then downsizing them to fit into various jewelry styles, shapes and sizes. Sharon's husband writes The Business Bonus Chapter. Lyle has over 40 years of successful business experience. He provides a brief overview into marketing your handcrafted jewelry.
