

As author of this book, I believe I have discovered a New Theory of Physics, which is beyond standard model. It explains clearly with proof what is the substance of electrons, positrons, and neutrinos, which are the building blocks of nature. The theory explains how they were created, what their shape is, what they are consisted of, and how they are connected to build the heavier particles including the quarks, which finally made the protons and the neutrons that make up the entire universe. The composition of our entire universe whose foundation consists of the building blocks of nature, heavier particles, quarks, protons, and neutrons make the microcosmic and macrocosmic planetary system of atoms, stars, and galaxies, etc. Also explained are, why negatively charged electrons dont repel each other inside the atoms? Using the laws of mathematics I found the electric charge of an electron, and I got precisely the rest mass energy in electro-volts of all kind of basic leptons. I started writing my theory thinking that a materialized universe could never exist. There could only exist a temperature founded in a double basis of a different amount of cold and hot. In this case motion would be created to move the universe and produce forces, planetary systems, and different powers of cold-dynamics and thermodynamics to hunt one another. Mass is energy and it must be consisted of condensed hot and cold temperature. Therefore temperature is the key word of my theory. Since my years of childhood I have done a lot with my life. I was born in Piraeus, Greece at a time when World War I just finished. Those were some difficult times and they cannot be forgotten. My motto was always to live in peace. Because they were difficult times and I had limited economic ability, my only option was to read a lot and put my mind to work. I moved to Canada in 1954. I married in 1956 and had two children, and in 1971 the family and I moved back to Greece. We finally had a third child and were trying to settle in a different country, all the time trying to balance work and family life. We then moved back to Canada and settled in Toronto to make a better life. Some of my accomplishments include: * Graduate of Prometheus School of Mechanics * In WWII, enlisted under British Command in the Royal Hellenic Navy as Second Class Petty Officer A. Mechanic. Discharged in 1953 with excellent conduct and excellent ability * While in the Navy, completed course at the Fleet Training Center, Naval Base, Norfolk, Virginia, USA in fire fighting and damage control * Also completed course for Operational Firemen at Naval Base, Philadelphia, PA, USA * Received my 4th and 3rd class Engineers certificate from Regina, Saskatchewan, Canada * Small Business Owner
